**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 7, 2006 has been entered.

***Amendment Entry***

2. The amendment filed December 7, 2006 has been entered. Claims 1-46 have been cancelled. New claims 47-52 have been added. Claims 47-52 are under consideration in this office action.

***Withdrawal of Rejections***

3. The following rejections have been withdrawn in view of applicants' amendments and arguments:

a) The written description rejection of claims 25-26, 32-33, 39-41 and 44 under 35 U.S.C. 112, first paragraph; and

b) The rejection of claims 25-26, 32-33, 39-41 and 44 under 35 U.S.C. 112, second paragraph.

Art Unit: 1645

***Response to Arguments***

4. Applicant's arguments with respect to claims 25-26, 32-33, 39-41 and 44 have been considered but are moot in view of the new grounds of rejection.

***New Grounds of Rejection***

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 47-52 are rejected under 35 U.S.C. 101 because the DNA molecule and the polypeptide as described by the claims are products of nature. The sequences can be naturally expressed. The claims do not require that the DNA or the polypeptide be isolated. Insertion of the terms "isolate or purify" would obviate this rejection.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 47-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1645

a) Claims 47 and 49 are drawn to a DNA molecules coding for the amino acid sequence given in SEQ ID NO:2 or 4 respectively. DNA codes for a protein or polypeptide, therefore it is unclear how the DNA molecule will code for the amino acid sequence. Therefore, clarification is required to overcome the rejection.

b) Claims 47, 49 and 51-52 recite the limitation "the amino acid sequence" while claims 48 and 50 recite the limitation "the sequence". There is insufficient antecedent basis for the limitations in the claims.

c) Furthermore the phrase "given in" is unclear, therefore it is suggested that the phrase "set forth in" be used.

### ***Conclusion***

7. No claims allowed.
